What the sixteen charts tell you

A planet that keeps falling in its own or exalted sign in many divisional charts is reliable: what it stands for tends to give steady results in many areas of life. A planet that is often in a debilitated sign needs more patience and support in those areas.

Your life story

This chapter reads your whole chart as one story: who you are, how your life unfolds stage by stage, the big themes and turning points, and what life asks of you. It is built from the same calculations as the rest of this report, written in plain words. A horoscope shows tendencies, not fixed events: your effort, character and choices always count.

Who you are

You were born with Mithun rising (lagna) and your Chandra in Kumbh, in the nakshatra Shatabhisha.

Your lagna lord Budh sits in house 12. The lagna lord in the twelfth house can bring life abroad, spiritual interests and expenses. You may work in foreign lands, hospitals or institutions. Care with health and spending is advised.

Your Chandra, the mind, sits in house 9. The Chandra in the ninth house gives a religious, kind and fortunate disposition. You enjoy travel, pilgrimages and learning, and you often receive support from mother or motherly figures. Classical texts consider this a good placement for fortune and reputation. Your beliefs may evolve over life. Charity and respect for teachers strengthen your luck.

Mithun is an airy, dual sign ruled by Budh. You are curious, quick-witted and talkative, and you learn new things easily. You enjoy reading, travel, conversation and variety, and you can usually see both sides of a question. The flip side is restlessness: too many interests at once can scatter your energy, and you may change your mind more often than people around you expect.

The strongest planet in your chart is Shani; its qualities (work, discipline, responsibility and delays) are your natural talents. The planet that asks for the most effort is Ravi; its matters (self-confidence, father, authority and recognition) are where life asks you to work harder and with more patience.

The flip side is restlessness: too many interests at once can scatter your energy, and you may change your mind more often than people around you expect.

Body and health

The traditional description is a tall, slim and youthful figure with expressive hands and lively eyes. The lungs, shoulders, arms, nerves and skin are the sensitive areas. Mental overwork, irregular sleep and anxiety are the commonest causes of trouble, so rest, breathing exercises and a calm routine are important for you.

Work and money

Budh gives skill with words, numbers and trade. Writing, teaching, journalism, media, sales, marketing, communication, accounting, computers, printing and publishing, and commission-based business all suit you. You can run more than one source of income at a time. Keeping written records and finishing what you start turns your many ideas into money.

Relationships

You want a partner who is also a friend you can talk to. The seventh house is Dhanu, ruled by Guru, which usually brings a partner who is principled, educated or religious-minded. Respecting each other's independence, and giving your partner full attention when they need it, keeps the bond strong.

Guidance

Budh as lagna lord also rules the fourth house of home and mind. Shukra is a strong friend for this lagna, while Mangal, as lord of the sixth and eleventh, needs care. Steadiness of purpose and a regular spiritual practice give depth to your natural cleverness.

Planets that ask for care in your chart

For your lagna, some planets rule the difficult houses (3rd, 6th, 8th and 12th). They are not "bad" planets: they simply bring their lessons through effort, delay or expense, and how much trouble they give depends on where they sit and how strong they are. Here is what each of them can mean for you, when it matters, and what to do.

Mangal — lord of houses 6 and 11

Mangal rules houses 6 and 11 (competition, debts; income, gains). It is one of the planets that bring more effort than ease for your lagna, although its natural gifts (courage, energy, brothers, land and property, and technical skill) remain.

- As lord of house 6 (competition, debts), it can bring: debts, disputes, health irritations, competition and friction at work or in legal matters. What helps: Avoid loans and arguments, keep a fixed health routine, and settle disputes early and calmly.

SAMPLE

- It also rules house 11 (income, gains), so some of its results are helpful, particularly for those matters.

It sits in house 3 (courage, siblings) in Simha. This is a growth house, where effort turns into gain, so the difficulty reduces with time. Its overall strength in your chart is 40 out of 100.

- Its main period (Mangal mahadasha) runs from 29/08/2103 to 29/08/2110; this is when its themes are strongest.
- Its sub-periods inside other main periods, when the same themes come to the surface: Shani – Mangal (01/03/2037 – 10/04/2038).

What to do: Keep Tuesday as a day for charity and good deeds, favour the colour Red, and chant Om Mangalaya Namah with devotion. Do not wear its gemstone unless an astrologer has checked your whole chart, because stones of such planets can increase their difficulty.

Guru — lord of houses 7 and 10

Guru rules houses 7 and 10 (marriage, partnerships and public dealings; career, status and authority). It is one of the planets that bring more effort than ease for your lagna, although its natural gifts (wisdom, children, teachers, wealth and dharma) remain.

- It also rules house 7 and 10 (marriage, partnerships and public dealings; career, status and authority), so some of its results are helpful, particularly for those matters.

It sits in house 6 (competition, debts) in Vrishchik. This is another difficult house; a difficult lord in a difficult house tends to reduce its own trouble, but it can make problems more private and inward, so stress, health and expenses need steady attention. Its overall strength in your chart is 40 out of 100.

- Its sub-periods inside other main periods, when the same themes come to the surface: Shani – Guru (14/02/2041 – 28/08/2043).

What to do: Keep Thursday as a day for charity and good deeds, favour the colour Yellow, and chant Om Gurave Namah with devotion. Do not wear its gemstone unless an astrologer has checked your whole chart, because stones of such planets can increase their difficulty.

Ravi — lord of house 3

Ravi rules house 3 (courage, siblings). It is one of the planets that bring more effort than ease for your lagna, although its natural gifts (soul, self-confidence, father, authority, government and vitality) remain.

- As lord of house 3 (courage, siblings), it can bring: effort-heavy ventures, some friction with siblings or colleagues, tiring short journeys and a need to push yourself to get things done. What helps: Take planned rather than impulsive decisions, keep good terms with siblings and neighbours, and build skills step by step.

It sits in house 1 (health, personality and new beginnings) in Mithun. This is a house of strength, which softens the difficulty and supports the planet's good side. Its overall strength in your chart is 38 out of 100.

- Its main period (Ravi mahadasha) runs from 28/08/2087 to 28/08/2093; this is when its themes are strongest.
- Its sub-periods inside other main periods, when the same themes come to the surface: Shani – Ravi (19/08/2034 – 01/08/2035).

What to do: Keep Sunday as a day for charity and good deeds, favour the colour Red, orange, and chant Om Suryaya Namah with devotion. Do not wear its gemstone unless an astrologer has checked

The twelve houses of your chart

Each house of the horoscope governs one part of life. Its condition depends on the sign it falls in, the planets placed there and, above all, where its ruling planet (the house lord) is placed.

Every house is explained below in full: what it means in life, how its sign and lord shape it, the planets that sit in or look at it, the everyday matters it covers with what can happen and what helps, the periods and transits when it becomes active, and what you can do to keep it strong.

House 1 — Health, personality and new beginnings (Needs care)

Sign: Mithun · Lord: Budh (in house 12) · Planets here: Ravi

The first house is you: your body, health, appearance, temperament and the way the world first sees you. It also shows how you begin things, how much vitality you carry and your basic outlook on life. Every other house is read in relation to it, so its condition colours the whole chart.

The sign on this house is Mithun, so you tend to approach these matters in a way that is curious, flexible and talkative.

The lagna lord in the twelfth house can bring life abroad, spiritual interests and expenses. You may work in foreign lands, hospitals or institutions. Care with health and spending is advised.

The lord of this house, Budh, is in a friend's sign, which keeps its results comfortable. Because its lord sits in house 12, the matters of this house are linked with the matters of house 12: progress in one tends to be felt in the other. That is a difficult position, so these matters come with extra effort, delay or expense.

- Ravi sits in this house and brings authority, attention and some heat to this house, so these matters ask for extra effort and patience.
- Rahu looks at this house and brings ambition, unusual events and restlessness to this house, so these matters ask for extra effort and patience.

The Ashtakavarga base of this house is average. Ravi, the natural significator of these matters (soul, self-confidence, father, authority, government and vitality), is under strain in your chart, so the blessings of this house come more slowly and need conscious support.

In practice: Protect your health and self-belief with regular rest, exercise and check-ups; confidence grows with small, steady wins.

In everyday life this house covers:

- **Health and energy** — what can happen: tiredness, low immunity or small health complaints. What helps: Keep fixed times for sleep and meals, exercise daily and do regular check-ups. See a doctor early for any symptom instead of waiting.
- **Confidence and personality** — what can happen: impatience, ego clashes or feeling unsure of yourself. What helps: Pause before reacting, listen first and take big decisions only after a night of thought.
- **New beginnings** — what can happen: starts that are rushed or lack planning. What helps: Plan first, take advice, and begin small so that you can test before going big.
- **Image and reputation** — what can happen: being misjudged or criticised for small things. What helps: Keep your promises, speak politely and avoid showing off.

The eighth house is about the hidden and the sudden: transformations, research, secrets, inheritance, insurance, the spouse's resources, long-term health and longevity. It is the house of life's deeper lessons.

The sign on this house is Makar, so you tend to approach these matters in a way that is disciplined, patient and ambitious.

The eighth lord in the tenth house can bring changes in career. Research, insurance, mining or investigation suit you.

The lord of this house, Shani, is in a neutral sign, which gives ordinary results. Because its lord sits in house 10, the matters of this house are linked with the matters of house 10: progress in one tends to be felt in the other. That is a supportive position.

- No planet sits in or looks at this house, so it is read mainly through its lord.

The Ashtakavarga base of this house is average. Shani, the natural significator of these matters (discipline, longevity, work, servants and patience), is well supported in your chart, which gives this house additional help.

Yogas in your chart

A yoga is a special combination of planets. Good yogas show areas of natural strength; the "care" yogas show areas where effort and remedies help. Yogas give their results mainly during the dashas of the planets that form them.

Gajakesari Yoga (Favourable)

Formed because: Guru is in house 10 counted from the Chandra.

Formed by Guru in a kendra from the Chandra. It is one of the most widely known yogas and is said to give intelligence, a good reputation, prosperity and the ability to overcome opponents. Its strength depends on the dignity of Guru and the Chandra.

Sunapha Yoga (Favourable)

Formed because: Shani in the 2nd from the Chandra.

Formed by planets (other than the Ravi) in the second house from the Chandra. It gives self-earned wealth, intelligence and a good reputation.

Vasi Yoga (Favourable)

Formed because: Budh, Shukra in the 12th from the Ravi.

Amala Yoga (Favourable)

Formed because: Guru is in the 10th house from the lagna or the Chandra.

Formed by a natural benefic in the tenth house from the lagna or the Chandra. It gives a spotless reputation, ethical conduct and lasting fame through good work.

Raja Yoga (Favourable)

Formed because: Budh (lord of 4) with Shukra (lord of 5).

Formed when the lord of a kendra (house of action) joins the lord of a trikona (house of fortune). It gives rise in status, authority and success, especially during the periods of the planets involved.

Vimala Yoga (Viparita Raja Yoga) (Favourable)

Formed because: The lord of house 12, Shukra, is in house 12.

Formed by the lord of the twelfth house in a difficult house. It gives good conduct, independence and savings, and reduces expenses.

Based on: Brihat Parashara Hora Shastra (attributed to Maharshi Parashara) — chapters on yogas (Nabhasa, Chandra, Surya, Raja and Dhana yogas); Phaladeepika of Mantreshwara (c. 14th century) — chapter on yogas; Saravali of Kalyanavarma (c. 10th century) — yogas formed by the Chandra and the Ravi.

SAMPLE

Life areas

Each area of life is judged by combining everything that bears on it: its houses and their lords, the planets placed in or looking at them, the natural significator (karaka), the Ashtakavarga points and the divisional chart that studies it. For every area you get a clear verdict with the reasons for and against it, what to expect, and the periods in which it is most likely to be active.

Career and profession — Very strong (8.6/10)

Career is judged mainly from the tenth house (status and work), with the sixth (daily work and service) and the second (earnings). Shani shows sustained effort, the Ravi authority and Budh skill. The Dashamsha (D10) refines the picture.

Verdict: Career is one of the better supported areas of your chart: expect real growth, responsibility and recognition, especially in the windows below.

What supports it

- The sign of this house has 37 Sarvashtakavarga points (average 28), a strong base.
- Shani sits here, and a malefic in house 10 gives drive and results through effort.
- The lord of house 6, Mangal, sits in house 3 (courage, siblings), a supportive house, linking these matters with that area of life.

What holds it back

- The lord of house 10, Guru, is placed in house 6 (competition, debts), a difficult house, so these matters meet delays, effort or detours.
- The natural significator Ravi is less supported in your chart (38 out of 100).

What to expect

- Fields that suit the 10th house of your chart: industry and manufacturing, large organisations, land and agriculture, mining and oil, structured long-term service (shown by Shani, the strongest influence on your 10th house).
- A second line of strength is Budh, a strong planet in your chart: business and trade, accounts and finance, writing and media, teaching, IT and communication.
- The 10th lord sits in house 6, which points towards service, healing or competitive fields.

In depth: Career and profession

The main house for this area is house 10. It falls in Meen, and its lord Guru sits in house 6.

Meen on the tenth house is imaginative and compassionate: healing, the arts, spirituality, water-linked trades and behind-the-scenes work suit you, and clear goals help you turn ideas into results.

The lord of your tenth house sits in the sixth house: service, healing, law, competition and problem-solving suit you; you succeed by handling difficulties others avoid, and employment is often steadier than business.

Shani in the tenth house gives a slow but lasting rise through hard work; discipline, patience and responsibility are your path, and success is usually strongest after the early thirties.

Job or business? Your chart leans towards employment in an organisation or institution, where steady growth, position and security matter; business is possible with a trusted partner and after solid

Your second house (savings) holds 27 Ashtakavarga points and your eleventh house (income) holds 35; the average is 28. This is an average base: steady effort and regular saving decide the result.

Marriage and partnership — Strong (6.2/10)

Marriage is judged from the seventh house (spouse and partnership), with the second (family life) and the twelfth (intimacy and bed comforts). Shukra is the significator of marriage (and Guru of the husband in a woman's chart). The Navamsha (D9) is essential here.

Verdict: Marriage and partnership are well supported: your chart favours a stable, caring relationship.

What supports it

- The lord of house 2, Chandra, sits in house 9 (fortune, father), a supportive house, linking these matters with that area of life.
- Guru is vargottama (same sign in D1 and D9), a sign of lasting strength.
- Guru looks at this house, a classical blessing for its matters.

What holds it back

- The lord of house 7, Guru, is placed in house 6 (competition, debts), a difficult house, so these matters meet delays, effort or detours.
- Ravi, a malefic, looks at this house and adds strain.

What to expect

- The 7th house falls in Dhanu and its lord Guru sits in house 6. A partner is likely to be wise, kind and well-educated, with good values (shown by Guru).
- Shukra is in house 12 and Guru in house 6; the dashas of Shukra, Guru and the 7th lord are the most likely times for marriage and for important changes in the relationship.
- Shani influences the 7th house: marriage often comes a little later, with a mature or serious partner, and grows stronger with time.

In depth: Marriage and partnership

The main house for this area is house 7. It falls in Dhanu, and its lord Guru sits in house 6.

Dhanu on the seventh house suggests a cheerful, honest and freedom-loving partner, perhaps from a different background or place; shared values and travel help the bond.

The lord of your seventh house sits in the sixth house: a partner may be met through work or service, and the relationship asks for patience, as daily duties and small disagreements need careful handling.

No planet sits in this house, so its results come mainly through its lord and through the planets that look at it.

Shukra in Vrishabh, its own sign, makes you affectionate, sensual and loyal; you value comfort, good food and lasting commitment.

The first strongly supported dasha periods after age 21 are: Guru–Shukra (09/07/2016 to 11/03/2019, age 21–23); Shani–Guru (14/02/2041 to 28/08/2043, age 45–48); Budh–Chandra (27/09/2050 to 27/02/2052, age 55–56).

Years to watch — Guru and Shani are the two slow planets that decide when life events actually happen. When both influence the house of an area together (the "double transit"), the matters of that area tend to come to the front. Your windows for the next 25 years:

- 22/11/2026 to 31/01/2027 (age 31): Guru in Simha and Shani in Meen together influence the

- 14/09/2043 to 13/12/2043 (age 48): Guru in Dhanu and Shani in Tula together influence the house that shows this area, so these matters come to the front.

The lord of your ninth house sits in the tenth house: your work and duty become your dharma, with fortune through career and public service.

Chandra in the ninth house gives a devotional, emotional faith and a fondness for pilgrimage; the mother’s blessing matters.

Years to watch — Guru and Shani are the two slow planets that decide when life events actually happen. When both influence the house of an area together (the "double transit"), the matters of that area tend to come to the front. Your windows for the next 25 years:

- 31/01/2027 to 10/06/2027 (age 31): Guru in Kark and Shani in Meen together influence the house that shows this area, and the supportive Shani – Shani period runs at the same time, so this is one of your stronger windows.
- 27/11/2027 to 25/02/2028 (age 32): Guru in Kanya and Shani in Meen together influence the house that shows this area, and the supportive Shani – Budh period runs at the same time, so this is one of your stronger windows.
- 05/05/2030 to 02/10/2030 (age 34–35): Guru in Tula and Shani in Vrishabh together influence the house that shows this area, and the supportive Shani – Ketu period runs at the same time, so this is one of your stronger windows.
- 04/04/2034 to 13/07/2034 (age 38–39): Guru in Meen and Shani in Mithun together influence the house that shows this area, and the supportive Shani – Shukra period runs at the same time, so this is one of your stronger windows.
- 10/09/2036 to 19/11/2036 (age 41): Guru in Mithun and Shani in Simha together influence the

house that shows this area, and the supportive Shani – Chandra period runs at the same time, so this is one of your stronger windows.
- 28/04/2037 to 25/09/2037 (age 41–42): Guru in Mithun and Shani in Simha together influence the house that shows this area, and the supportive Shani – Mangal period runs at the same time, so this is one of your stronger windows.

Timing

- Running now: Shani – Shani (until 31/08/2027) directly touches this area, and its tone for it is favourable.
- Best windows ahead: Shani–Shani (22/11/2026 to 31/08/2027, age 31–32); Shani–Budh (31/08/2027 to 10/05/2030, age 32–34); Shani–Shukra (19/06/2031 to 19/08/2034, age 36–39); Shani–Chandra (01/08/2035 to 01/03/2037, age 40–41).

Advice

- Spiritual interest is present; a simple daily practice helps.
- The weakest link for this area is Guru. To strengthen it: keep Thursday as your regular day for good deeds, wear or favour the colour Yellow, and chant its mantra with devotion (Om Gurave Namah).

Readings from the divisional charts

D9 — Navamsha (Spouse, dharma)

The Navamsha is the most important divisional chart. It shows marriage and the spouse, inner character, dharma and the real strength of each planet. A planet strong in the Navamsha gives reliable results even if it looks weak in the birth chart.

Lagna of this chart: Vrishabh

Navamsha lagna Vrishabh: You are affectionate, loyal and protective. Your seventh house is Vrishchik, ruled by Mangal, so partners tend to be intense, passionate and strong-willed. Possessiveness on either side is the thing to manage; trust and shared routines bring out the best in your married life.

Planet	Sign	House	Dignity	Condition in this chart
Ravi	Tula	6	Debilitated	weak
Chandra	Makar	9	Neutral sign	well placed
Mangal	Kanya	5	Enemy's sign	well placed
Budh	Vrishabh	1	Friend's sign	well placed
Guru	Vrishchik	7	Friend's sign	well placed
Shukra	Vrishabh	1	Own sign	strong
Shani	Kark	3	Enemy's sign	moderate
Rahu	Dhanu	8	Neutral sign	needs care
Ketu	Mithun	2	Neutral sign	moderate

The lord of this chart's lagna, Shukra, is in house 1 (health, personality and new beginnings), which supports the matters this chart describes.

Your dasha periods

In the Vimshottari system, life is divided into periods (mahadashas) ruled by the nine planets in a fixed order. Each period is divided into sub-periods (antardashas). The results of a period depend on what the ruling planet stands for in your own chart: the houses it rules, the house it occupies and its strength.

Shani mahadasha: 27/08/2024 to 28/08/2043 (running now)

Shani's period asks for patience, hard work and responsibility. Results come slowly but are lasting. It is a time to build discipline, serve others, look after the joints and avoid shortcuts.

Shani rules your houses 8 and 9 (sudden changes, research, inheritance and longevity; fortune, father, teachers, religion and long journeys), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 10, the house of career, status and authority. It is in a neutral sign.

Overall tone: favourable. This period mainly activates: Spiritual life (favourable), Career and profession (favourable), Children (favourable).

Most supportive sub-periods: Shani (27/08/2024), Shukra (19/06/2031). Sub-periods that ask for more care: Ravi (19/08/2034), Mangal (01/03/2037).

Shani – Shani: 27/08/2024 to 31/08/2027

This sub-period of the main lord itself concentrates its results. Shani rules your houses 8 and 9 (sudden changes, research, inheritance and longevity; fortune, father, teachers, religion and long journeys), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 10, the house of career, status and authority. It is in a neutral sign. Tone: favourable. Activates: Spiritual life (favourable), Career and profession (favourable). The two lords support each other by position in your chart.

Shani – Budh: 31/08/2027 to 10/05/2030

The lords of the main period and sub-period are friendly, which helps them work together smoothly. Budh rules your houses 1 and 4 (health, personality and new beginnings; home, mother, property, vehicles and peace of mind), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 12, the house of expenses, foreign lands, spiritual life and sleep. It is in a friendly sign, which supports its results. Tone: favourable. Activates: Travel and foreign connections (favourable), Spiritual life (favourable).

Shani – Ketu: 10/05/2030 to 19/06/2031

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Ketu is a shadow planet that gives the results of the sign it occupies and of its lord, Mangal, and it sits in an upachaya house (3, 6, 10 or 11), which gives results that improve with effort over time — house 11, the house of income, gains, friends and fulfilment of desires. It is in a friendly sign, which supports its results. Tone: favourable. Activates: Spiritual life (favourable).

Shani – Shukra: 19/06/2031 to 19/08/2034

The lords of the main period and sub-period are friendly, which helps them work together smoothly. Shukra rules your houses 5 and 12 (children, education, intelligence and creativity; expenses, foreign

SAMPLE

lands, spiritual life and sleep), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 12, the house of expenses, foreign lands, spiritual life and sleep. It is in its own sign, which gives it confidence and stability. Tone: favourable. Activates: Spiritual life (favourable), Children (favourable).

Shani – Ravi: 19/08/2034 to 01/08/2035

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Ravi rules your house 3 (courage, siblings, short travel and communication), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 1, the house of health, personality and new beginnings. It is in a neutral sign. Tone: mostly favourable. Activates: Career and profession (mostly favourable), Health and vitality (mostly favourable). The two lords support each other by position in your chart.

Shani – Chandra: 01/08/2035 to 01/03/2037

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Chandra rules your house 2 (money, family and speech), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 9, the house of fortune, father, teachers, religion and long journeys. It is in a neutral sign. Tone: favourable. Activates: Spiritual life (favourable), Wealth and finances (favourable).

Shani – Mangal: 01/03/2037 to 10/04/2038

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Mangal rules your houses 6 and 11 (competition, debts, illness, service and enemies; income, gains, friends and fulfilment of desires), and it sits in an upachaya house (3, 6, 10 or 11), which gives results that improve with effort over time — house 3, the house of courage, siblings, short travel and communication. It is in a friendly sign, which supports its results. Tone: favourable. Activates: Career and profession (favourable), Spiritual life (favourable). The two lords sit in a 6/8 relation in your chart, so the themes of the main period and sub-period can pull against each other.

Shani – Rahu: 10/04/2038 to 14/02/2041

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Rahu is a shadow planet that gives the results of the sign it occupies and of its lord, Shukra, and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 5, the house of children, education, intelligence and creativity. It is in a friendly sign, which supports its results. Tone: favourable. Activates: Children (favourable), Spiritual life (favourable). The two lords sit in a 6/8 relation in your chart, so the themes of the main period and sub-period can pull against each other.

Shani – Guru: 14/02/2041 to 28/08/2043

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Guru rules your houses 7 and 10 (marriage, partnerships and public dealings; career, status and authority), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 6, the house of competition, debts, illness, service and enemies. It is in a friendly sign, which supports its results. Tone: favourable. Activates: Career and profession (favourable), Spiritual life (favourable). The two lords support each other by position in your chart.

Shani sade-sati in your life

Shani takes about two and a half years to cross one sign. When it passes through the sign before your Chandra rashi, your Chandra rashi and the sign after it, the seven-and-a-half-year period is called sade-sati. It is a period of responsibility, hard work and inner growth, not only hardship. Many people make lasting achievements during sade-sati when they work honestly and patiently.

Now running: Sade-sati — Shani in Meen until 03/06/2027. Third phase (Shani in the second from the Chandra): family responsibilities and financial matters come into focus. Careful speech, saving and honest dealings bring relief. The effects gradually ease as the phase ends.

The three phases

First phase (Shani in the twelfth from the Chandra): expenses, travel, disturbed sleep and worries about the future can arise. It is a good time to cut waste, plan finances and look after health.

Second phase (Shani over the Chandra rashi): this is usually the most demanding phase. Work pressure, emotional strain and slow results are common. Patience, discipline and a calm routine carry you through, and this phase often lays the foundation for later success.

Third phase (Shani in the second from the Chandra): family responsibilities and financial matters come into focus. Careful speech, saving and honest dealings bring relief. The effects gradually ease as the phase ends.

Dhaiya (small panoti) occurs when Shani passes the fourth or eighth sign from the Chandra. The fourth brings domestic and property concerns; the eighth asks for care with health and sudden obstacles. Each lasts about two and a half years.

Traditional remedies

Traditional remedies: recite the Hanuman Chalisa or Shani stotra on Saturdays; light a sesame-oil lamp under a peepal tree on Saturday evenings; donate black sesame, urad dal, iron items, blankets or footwear to the needy; serve elderly and working people; avoid alcohol, dishonesty and harsh behaviour. These are traditional practices of devotion and charity and are not a substitute for medical or professional advice.
