What the sixteen charts tell you

A planet that keeps falling in its own or exalted sign in many divisional charts is reliable: what it stands for tends to give steady results in many areas of life. A planet that is often in a debilitated sign needs more patience and support in those areas.

D1 Rashi	Mithun	Shukra	–
D2 Hora	Kark	Ravi, Guru	Mangal
D3 Drekkana	Kumbh	Budh, Guru	Shukra

Ravi	2	2
Chandra	4	1

Budh	3	1
Guru	4	0
Shukra	4	1
Shani	3	1

Chandra, Guru, Shukra is in its own or exalted sign in the largest number of divisional charts (4 of 16), so the matters it rules are supported in many areas of life.

Your life story

This chapter reads your whole chart as one story: who you are, how your life unfolds stage by stage, the big themes and turning points, and what life asks of you. It is built from the same calculations as the rest of this report, written in plain words. A horoscope shows tendencies, not fixed events: your effort, character and choices always count.

Who you are

You were born with Mithun rising (lagna) and your Chandra in Kumbh, in the nakshatra Shatabhisha.

Your lagna lord Budh sits in house 12. The lagna lord in the twelfth house can bring life abroad, spiritual interests and expenses. You may work in foreign lands, hospitals or institutions. Care with health and spending is advised.

Your Chandra, the mind, sits in house 9. The Chandra in the ninth house gives a religious, kind and fortunate disposition. You enjoy travel, pilgrimages and learning, and you often receive support from mother or motherly figures. Classical texts consider this a good placement for fortune and reputation. Your beliefs may evolve over life. Charity and respect for teachers strengthen your luck.

Mithun is an airy, dual sign ruled by Budh. You are curious, quick-witted and talkative, and you learn new things easily. You enjoy reading, travel, conversation and variety, and you can usually see both sides of a question. The flip side is restlessness: too many interests at once can scatter your energy, and you may change your mind more often than people around you expect.

The strongest planet in your chart is Shani; its qualities (work, discipline, responsibility and delays) are your natural talents. The planet that asks for the most effort is Ravi; its matters (self-confidence, father, authority and recognition) are where life asks you to work harder and with more patience.

Gifts in your chart

- Your lagna lord Budh is strong (friend's sign, house 12), which gives a sound base for health, confidence and success.
- Gajakesari Yoga is present in your chart: Guru is in house 10 counted from the Chandra. Formed by Guru in a kendra from the Chandra. It is one of the most widely known yogas and is said to give intelligence, a good reputation, prosperity and the ability to overcome opponents. Its strength depends on the dignity of Guru and the Chandra.

SAMPLE

Your personal reading

Mithun (Gemini) Lagna

Nature

Mithun is an airy, dual sign ruled by Budh. You are curious, quick-witted and talkative, and you learn new things easily. You enjoy reading, travel, conversation and variety, and you can usually see both sides of a question. The flip side is restlessness: too many interests at once can scatter your energy, and you may change your mind more often than people around you expect.

Body and health

The traditional description is a tall, slim and youthful figure with expressive hands and lively eyes. The lungs, shoulders, arms, nerves and skin are the sensitive areas. Mental overwork, irregular sleep and anxiety are the commonest causes of trouble, so rest, breathing exercises and a calm routine are important for you.

Work and money

Budh gives skill with words, numbers and trade. Writing, teaching, journalism, media, sales, marketing, communication, accounting, computers, printing and publishing, and commission-based business all suit you. You can run more than one source of income at a time. Keeping written records and finishing what you start turns your many ideas into money.

Relationships

You want a partner who is also a friend you can talk to. The seventh house is Dhanu, ruled by Guru, which usually brings a partner who is principled, educated or religious-minded. Respecting each other's independence, and giving your partner full attention when they need it, keeps the bond strong.

Guidance

Budh as lagna lord also rules the fourth house of home and mind. Shukra is a strong friend for this lagna, while Mangal, as lord of the sixth and eleventh, needs care. Steadiness of purpose and a regular spiritual practice give depth to your natural cleverness.

Planets that ask for care in your chart

For your lagna, some planets rule the difficult houses (3rd, 6th, 8th and 12th). They are not "bad" planets: they simply bring their lessons through effort, delay or expense, and how much trouble they give depends on where they sit and how strong they are. Here is what each of them can mean for you, when it matters, and what to do.

Mangal — lord of houses 6 and 11

Mangal rules houses 6 and 11 (competition, debts; income, gains). It is one of the planets that bring more effort than ease for your lagna, although its natural gifts (courage, energy, brothers, land and property, and technical skill) remain.

- As lord of house 6 (competition, debts), it can bring: debts, disputes, health irritations, competition and friction at work or in legal matters. What helps: Avoid loans and arguments, keep a fixed health routine, and settle disputes early and calmly.

SAMPLE

- It also rules house 11 (income, gains), so some of its results are helpful, particularly for those matters.

It sits in house 3 (courage, siblings) in Simha. This is a growth house, where effort turns into gain, so the difficulty reduces with time. Its overall strength in your chart is 40 out of 100.

- Its main period (Mangal mahadasha) runs from 29/08/2103 to 29/08/2110; this is when its themes are strongest.
- Its sub-periods inside other main periods, when the same themes come to the surface: Shani – Mangal (01/03/2037 – 10/04/2038).

What to do: Keep Tuesday as a day for charity and good deeds, favour the colour Red, and chant Om Mangalaya Namah with devotion. Do not wear its gemstone unless an astrologer has checked your whole chart, because stones of such planets can increase their difficulty.

Guru — lord of houses 7 and 10

Guru rules houses 7 and 10 (marriage, partnerships and public dealings; career, status and authority). It is one of the planets that bring more effort than ease for your lagna, although its natural gifts (wisdom, children, teachers, wealth and dharma) remain.

- It also rules house 7 and 10 (marriage, partnerships and public dealings; career, status and authority), so some of its results are helpful, particularly for those matters.

It sits in house 6 (competition, debts) in Vrishchik. This is another difficult house; a difficult lord in a difficult house tends to reduce its own trouble, but it can make problems more private and inward, so stress, health and expenses need steady attention. Its overall strength in your chart is 40 out of 100.

- Its sub-periods inside other main periods, when the same themes come to the surface: Shani – Guru (14/02/2041 – 28/08/2043).

What to do: Keep Thursday as a day for charity and good deeds, favour the colour Yellow, and chant Om Gurave Namah with devotion. Do not wear its gemstone unless an astrologer has checked your whole chart, because stones of such planets can increase their difficulty.

Ravi — lord of house 3

Ravi rules house 3 (courage, siblings). It is one of the planets that bring more effort than ease for your lagna, although its natural gifts (soul, self-confidence, father, authority, government and vitality) remain.

- As lord of house 3 (courage, siblings), it can bring: effort-heavy ventures, some friction with siblings or colleagues, tiring short journeys and a need to push yourself to get things done. What helps: Take planned rather than impulsive decisions, keep good terms with siblings and neighbours, and build skills step by step.

It sits in house 1 (health, personality and new beginnings) in Mithun. This is a house of strength, which softens the difficulty and supports the planet's good side. Its overall strength in your chart is 38 out of 100.

- Its main period (Ravi mahadasha) runs from 28/08/2087 to 28/08/2093; this is when its themes are strongest.
- Its sub-periods inside other main periods, when the same themes come to the surface: Shani – Ravi (19/08/2034 – 01/08/2035).

What to do: Keep Sunday as a day for charity and good deeds, favour the colour Red, orange, and chant Om Suryaya Namah with devotion. Do not wear its gemstone unless an astrologer has checked

SAMPLE

The twelve houses of your chart

Each house of the horoscope governs one part of life. Its condition depends on the sign it falls in, the planets placed there and, above all, where its ruling planet (the house lord) is placed.

Every house is explained below in full: what it means in life, how its sign and lord shape it, the planets that sit in or look at it, the everyday matters it covers with what can happen and what helps, the periods and transits when it becomes active, and what you can do to keep it strong.

House 1 — Health, personality and new beginnings (Needs care)

Sign: Mithun · Lord: Budh (in house 12) · Planets here: Ravi

The first house is you: your body, health, appearance, temperament and the way the world first sees you. It also shows how you begin things, how much vitality you carry and your basic outlook on life. Every other house is read in relation to it, so its condition colours the whole chart.

The sign on this house is Mithun, so you tend to approach these matters in a way that is curious, flexible and talkative.

The lagna lord in the twelfth house can bring life abroad, spiritual interests and expenses. You may work in foreign lands, hospitals or institutions. Care with health and spending is advised.

The lord of this house, Budh, is in a friend's sign, which keeps its results comfortable. Because its lord sits in house 12, the matters of this house are linked with the matters of house 12: progress in one tends to be felt in the other. That is a difficult position, so these matters come with extra effort, delay or expense.

- Ravi sits in this house and brings authority, attention and some heat to this house, so these matters ask for extra effort and patience.
- Rahu looks at this house and brings ambition, unusual events and restlessness to this house, so these matters ask for extra effort and patience.

The Ashtakavarga base of this house is average. Ravi, the natural significator of these matters (soul, self-confidence, father, authority, government and vitality), is under strain in your chart, so the blessings of this house come more slowly and need conscious support.

In practice: Protect your health and self-belief with regular rest, exercise and check-ups; confidence grows with small, steady wins.

In everyday life this house covers:

- **Health and energy** — what can happen: tiredness, low immunity or small health complaints. What helps: Keep fixed times for sleep and meals, exercise daily and do regular check-ups. See a doctor early for any symptom instead of waiting.
- **Confidence and personality** — what can happen: impatience, ego clashes or feeling unsure of yourself. What helps: Pause before reacting, listen first and take big decisions only after a night of thought.
- **New beginnings** — what can happen: starts that are rushed or lack planning. What helps: Plan first, take advice, and begin small so that you can test before going big.
- **Image and reputation** — what can happen: being misjudged or criticised for small things. What helps: Keep your promises, speak politely and avoid showing off.

Yogas in your chart

A yoga is a special combination of planets. Good yogas show areas of natural strength; the "care" yogas show areas where effort and remedies help. Yogas give their results mainly during the dashas of the planets that form them.

Gajakesari Yoga (Favourable)

Formed because: Guru is in house 10 counted from the Chandra.

Formed by Guru in a kendra from the Chandra. It is one of the most widely known yogas and is said to give intelligence, a good reputation, prosperity and the ability to overcome opponents. Its strength depends on the dignity of Guru and the Chandra.

Sunapha Yoga (Favourable)

Formed because: Shani in the 2nd from the Chandra.

Formed by planets (other than the Ravi) in the second house from the Chandra. It gives self-earned wealth, intelligence and a good reputation.

Vasi Yoga (Favourable)

Formed because: Budh, Shukra in the 12th from the Ravi.

Formed by planets in the twelfth house from the Ravi. It gives generosity, skill and comfort.

Amala Yoga (Favourable)

Formed because: Guru is in the 10th house from the lagna or the Chandra.

Formed by a natural benefic in the tenth house from the lagna or the Chandra. It gives a spotless reputation, ethical conduct and lasting fame through good work.

Raja Yoga (Favourable)

Formed because: Budh (lord of 4) with Shukra (lord of 5).

Formed when the lord of a kendra (house of action) joins the lord of a trikona (house of fortune). It gives rise in status, authority and success, especially during the periods of the planets involved.

Vimala Yoga (Viparita Raja Yoga) (Favourable)

Formed because: The lord of house 12, Shukra, is in house 12.

Formed by the lord of the twelfth house in a difficult house. It gives good conduct, independence and savings, and reduces expenses.

Based on: Brihat Parashara Hora Shastra (attributed to Maharshi Parashara) — chapters on yogas (Nabhasa, Chandra, Surya, Raja and Dhana yogas); Phaladeepika of Mantreshwara (c. 14th century) — chapter on yogas; Saravali of Kalyanavarma (c. 10th century) — yogas formed by the Chandra and the Ravi.

SAMPLE

Life areas

Each area of life is judged by combining everything that bears on it: its houses and their lords, the planets placed in or looking at them, the natural significator (karaka), the Ashtakavarga points and the divisional chart that studies it. For every area you get a clear verdict with the reasons for and against it, what to expect, and the periods in which it is most likely to be active.

Career and profession — Very strong (8.6/10)

Career is judged mainly from the tenth house (status and work), with the sixth (daily work and service) and the second (earnings). Shani shows sustained effort, the Ravi authority and Budh skill. The Dashamsha (D10) refines the picture.

Verdict: Career is one of the better supported areas of your chart: expect real growth, responsibility and recognition, especially in the windows below.

What supports it

- The sign of this house has 37 Sarvashtakavarga points (average 28), a strong base.
- Shani sits here, and a malefic in house 10 gives drive and results through effort.
- The lord of house 6, Mangal, sits in house 3 (courage, siblings), a supportive house, linking these matters with that area of life.
- Guru is vargottama (same sign in D1 and D9), a sign of lasting strength.
- The 10th lord Guru is linked with the lord of house 5, Shukra (facing each other), a classical Raja yoga for status.

What holds it back

- The lord of house 10, Guru, is placed in house 6 (competition, debts), a difficult house, so these matters meet delays, effort or detours.
- The natural significator Ravi is less supported in your chart (38 out of 100).

What to expect

- Fields that suit the 10th house of your chart: industry and manufacturing, large organisations, land and agriculture, mining and oil, structured long-term service (shown by Shani, the strongest influence on your 10th house).
- A second line of strength is Budh, a strong planet in your chart: business and trade, accounts and finance, writing and media, teaching, IT and communication.
- The 10th lord sits in house 6, which points towards service, healing or competitive fields.

In depth: Career and profession

The main house for this area is house 10. It falls in Meen, and its lord Guru sits in house 6.

Meen on the tenth house is imaginative and compassionate: healing, the arts, spirituality, water-linked trades and behind-the-scenes work suit you, and clear goals help you turn ideas into results.

The lord of your tenth house sits in the sixth house: service, healing, law, competition and problem-solving suit you; you succeed by handling difficulties others avoid, and employment is often steadier than business.

Shani in the tenth house gives a slow but lasting rise through hard work; discipline, patience and

SAMPLE

responsibility are your path, and success is usually strongest after the early thirties.

Job or business? Your chart leans towards employment in an organisation or institution, where steady growth, position and security matter; business is possible with a trusted partner and after solid experience.

The first strongly supported dasha periods after age 18 are: Guru–Budh (17/06/2013 to 04/08/2015, age 18–20); Guru–Shukra (09/07/2016 to 11/03/2019, age 21–23); Shani–Shani (27/08/2024 to 31/08/2027, age 29–32).

Years to watch — Guru and Shani are the two slow planets that decide when life events actually happen. When both influence the house of an area together (the "double transit"), the matters of that area tend to come to the front. Your windows for the next 25 years:

- 31/01/2027 to 10/06/2027 (age 31): Guru in Kark and Shani in Meen together influence the house that shows this area, and the supportive Shani – Shani period runs at the same time, so this is one of your stronger windows.
- 27/11/2027 to 25/02/2028 (age 32): Guru in Kanya and Shani in Meen together influence the house that shows this area, and the supportive Shani – Budh period runs at the same time, so this is one of your stronger windows.
- 02/10/2030 to 19/02/2031 (age 35): Guru in Vrishchik and Shani in Vrishabh together influence the house that shows this area, so these matters come to the front.
- 19/06/2031 to 17/10/2031 (age 36): Guru in Vrishchik and Shani in Vrishabh together influence the house that shows this area, so these matters come to the front.
- 07/05/2041 to 05/08/2041 (age 45–46): Guru in Kanya and Shani in Kanya together influence the house that shows this area, and the supportive Shani – Guru period runs at the same time, so this is one of your stronger windows.
- 11/12/2049 to 27/09/2050 (age 54–55): Guru in Kark and Shani in Makar together influence the house that shows this area, and the supportive Budh – Ravi period runs at the same time, so this is one of your stronger windows.

Timing

- Running now: Shani – Shani (until 31/08/2027) directly touches this area, and its tone for it is favourable.
- Best windows ahead: Shani–Shani (22/11/2026 to 31/08/2027, age 31–32); Shani–Budh (31/08/2027 to 10/05/2030, age 32–34); Shani–Chandra (01/08/2035 to 01/03/2037, age 40–41); Shani–Mangal (01/03/2037 to 10/04/2038, age 41–42); Shani–Guru (14/02/2041 to 28/08/2043, age 45–48); Budh–Budh (28/08/2043 to 24/01/2046, age 48–50).

Advice

- Aim high and take leadership roles; your chart supports recognition.
- The weakest link for this area is Ravi. To strengthen it: keep Sunday as your regular day for good deeds, wear or favour the colour Red, orange, and chant its mantra with devotion (Om Suryaya Namah).

Wealth and finances — Very strong (8.3/10)

Wealth is judged from the second house (savings and family wealth), the eleventh (income and gains) and the ninth (fortune). Guru and Shukra are the natural significators of prosperity. The Hora chart (D2) adds detail.

Verdict: Wealth is well supported: your chart shows good capacity to earn and to accumulate, particularly in the windows below.

What supports it

- The lord of house 2, Chandra, sits in house 9 (fortune, father), a supportive house, linking these matters with that area of life.
- Guru looks at this house, a classical blessing for its matters.
- The lords of the 2nd and 11th houses (Chandra and Mangal) are linked (facing each other), a classical Dhana yoga for earning and saving.
- The lord of house 9, Shani, sits in house 10 (career, status and authority), a supportive house, linking these matters with that area of life.
- The sign of this house has 35 Sarvashtakavarga points (average 28), a strong base.

What holds it back

- Ketu, a natural malefic, sits in this house and adds pressure or delay.
- Chandra, a natural malefic, sits in this house and adds pressure or delay.
- The sign of this house has only 22 Sarvashtakavarga points (average 28), a thin base.
- Mangal, a malefic, looks at this house and adds strain.

What to expect

- Your income is most likely to flow through technical skill, property or physical enterprise (shown by Mangal, lord of the 11th house).
- Savings and family wealth are shown by Chandra, lord of the 2nd house, linked with dealing with the public, food, travel or care.
- The 11th lord is not in an easy house, so income grows through effort and is better built through steady saving than through risk.

In depth: Wealth and finances

The main house for this area is house 2. It falls in Kark, and its lord Chandra sits in house 9.

Kark on the second house ties money to family, home and emotional security; you save for loved ones, and property, food or home-related income can help.

The lord of your second house sits in the ninth house: fortune supports your finances, with gains through teaching, law, travel, religion or the father; money tends to come with good karma and generosity.

No planet sits in this house, so its results come mainly through its lord and through the planets that look at it.

Your second house (savings) holds 27 Ashtakavarga points and your eleventh house (income) holds 35; the average is 28. This is an average base: steady effort and regular saving decide the result.

Years to watch — Guru and Shani are the two slow planets that decide when life events actually happen. When both influence the house of an area together (the "double transit"), the matters of that area tend to come to the front. Your windows for the next 25 years:

Marriage is judged from the seventh house (spouse and partnership), with the second (family life) and the twelfth (intimacy and bed comforts). Shukra is the significator of marriage (and Guru of the husband in a woman's chart). The Navamsha (D9) is essential here.

- Guru is vargottama (same sign in D1 and D9), a sign of lasting strength.
- Guru looks at this house, a classical blessing for its matters.
- The lord of house 12, Shukra, sits in its own house, which strengthens everything this house stands for.
- Shukra is in its own sign, so it can deliver strongly.

What holds it back

- Shani, a malefic, looks at this house and adds strain.
- Ketu, a malefic, looks at this house and adds strain.

What to expect

- The 7th house falls in Dhanu and its lord Guru sits in house 6. A partner is likely to be wise, kind and well-educated, with good values (shown by Guru).
- Shukra is in house 12 and Guru in house 6; the dashas of Shukra, Guru and the 7th lord are the most likely times for marriage and for important changes in the relationship.
- Shani influences the 7th house: marriage often comes a little later, with a mature or serious partner, and grows stronger with time.

In depth: Marriage and partnership

The main house for this area is house 7. It falls in Dhanu, and its lord Guru sits in house 6.

Dhanu on the seventh house suggests a cheerful, honest and freedom-loving partner, perhaps from a different background or place; shared values and travel help the bond.

The lord of your seventh house sits in the sixth house: a partner may be met through work or service, and the relationship asks for patience, as daily duties and small disagreements need careful handling.

No planet sits in this house, so its results come mainly through its lord and through the planets that look at it.

Shukra in Vrishabh, its own sign, makes you affectionate, sensual and loyal; you value comfort, good food and lasting commitment.

The first strongly supported dasha periods after age 21 are: Guru–Shukra (09/07/2016 to 11/03/2019, age 21–23); Shani–Guru (14/02/2041 to 28/08/2043, age 45–48); Budh–Chandra (27/09/2050 to 27/02/2052, age 55–56).

Health and vitality — Needs effort (3.7/10)

Health is judged from the first house (body and vitality), the sixth (illness and recovery) and the eighth (chronic matters and longevity). The Ravi shows vitality and the Chandra the mind. The Trimshamsha (D30) shows areas to guard. This section is traditional guidance only and never a substitute for medical advice.

- Budh, a benefic, looks at this house and supports it.

KP significators

In the Krishnamurti Paddhati (KP), a planet signifies houses at four levels: the house occupied by its star lord (strongest), the house it occupies itself, the houses owned by its star lord, and the houses it owns. Houses are taken from the Placidus cusps. Rahu and Ketu act for the lord of the sign they occupy. An event is promised when the planets running in the dasha signify the houses connected with it.

Your dasha periods

In the Vimshottari system, life is divided into periods (mahadashas) ruled by the nine planets in a fixed order. Each period is divided into sub-periods (antardashas). The results of a period depend on what the ruling planet stands for in your own chart: the houses it rules, the house it occupies and its strength.

Rahu mahadasha: 18/06/1995 to 27/08/2008

Rahu's period brings ambition, sudden changes, foreign connections and unconventional opportunities. It can raise you quickly. It is a time to stay ethical and clear-headed, and to avoid confusion, deception and risky shortcuts.

Rahu is a shadow planet that gives the results of the sign it occupies and of its lord, Shukra, and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 5, the house of children, education, intelligence and creativity. It is in a friendly sign, which supports its results.

Overall tone: favourable. This period mainly activates: Children (favourable), Travel and foreign connections (favourable).

Most supportive sub-periods: Shani (03/10/1995), Budh (09/08/1998). Sub-periods that ask for more care: Ravi (16/03/2005), Mangal (10/08/2007).

Rahu – Guru: 18/06/1995 to 03/10/1995

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Guru rules your houses 7 and 10 (marriage, partnerships and public dealings; career, status and authority), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 6, the house of competition, debts, illness, service and enemies. It is in a friendly sign, which supports its results. Tone: mostly favourable. Activates: Children (mostly favourable).

Rahu – Shani: 03/10/1995 to 09/08/1998

The lords of the main period and sub-period are friendly, which helps them work together smoothly. Shani rules your houses 8 and 9 (sudden changes, research, inheritance and longevity; fortune, father, teachers, religion and long journeys), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 10, the house of career, status and authority. It is in a neutral sign. Tone: favourable. Activates: Children (favourable), Spiritual life (favourable). The two lords sit in a 6/8 relation in your chart, so the themes of the main period and sub-period can pull against each other.

Rahu – Budh: 09/08/1998 to 26/02/2001

The lords of the main period and sub-period are friendly, which helps them work together smoothly. Budh rules your houses 1 and 4 (health, personality and new beginnings; home, mother, property, vehicles and peace of mind), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 12, the house of expenses, foreign lands, spiritual life and sleep. It is in a friendly sign, which supports its results. Tone: favourable. Activates: Education and learning (favourable), Travel and foreign connections (favourable). The two lords sit in a 6/8 relation in your chart, so the themes of the main period and sub-period can pull against each other.

SAMPLE

Rahu – Ketu: 26/02/2001 to 16/03/2002

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Ketu is a shadow planet that gives the results of the sign it occupies and of its lord, Mangal, and it sits in an upachaya house (3, 6, 10 or 11), which gives results that improve with effort over time — house 11, the house of income, gains, friends and fulfilment of desires. It is in a friendly sign, which supports its results. Tone: mostly favourable. The two lords support each other by position in your chart.

Rahu – Shukra: 16/03/2002 to 16/03/2005

The lords of the main period and sub-period are friendly, which helps them work together smoothly. Shukra rules your houses 5 and 12 (children, education, intelligence and creativity; expenses, foreign lands, spiritual life and sleep), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 12, the house of expenses, foreign lands, spiritual life and sleep. It is in its own sign, which gives it confidence and stability. Tone: favourable. Activates: Children (favourable), Travel and foreign connections (favourable). The two lords sit in a 6/8 relation in your chart, so the themes of the main period and sub-period can pull against each other.

Rahu – Ravi: 16/03/2005 to 08/02/2006

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Ravi rules your house 3 (courage, siblings, short travel and communication), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 1, the house of health, personality and new beginnings. It is in a neutral sign. Tone: mixed. Activates: Travel and foreign connections (mixed). The two lords support each other by position in your chart.

Rahu – Chandra: 08/02/2006 to 10/08/2007

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Chandra rules your house 2 (money, family and speech), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 9, the house of fortune, father, teachers, religion and long journeys. It is in a neutral sign. Tone: mostly favourable. Activates: Children (mostly favourable), Spiritual life (mostly favourable). The two lords support each other by position in your chart.

Rahu – Mangal: 10/08/2007 to 27/08/2008

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Mangal rules your houses 6 and 11 (competition, debts, illness, service and enemies; income, gains, friends and fulfilment of desires), and it sits in an upachaya house (3, 6, 10 or 11), which gives results that improve with effort over time — house 3, the house of courage, siblings, short travel and communication. It is in a friendly sign, which supports its results. Tone: mixed. The two lords support each other by position in your chart.

Guru mahadasha: 27/08/2008 to 27/08/2024

Guru's period is traditionally a time of growth, wisdom, children, teachers and religious or charitable activity. Opportunities for learning and expansion arise. It is a time to act with honesty and generosity, and to avoid over-confidence.

Guru rules your houses 7 and 10 (marriage, partnerships and public dealings; career, status and

authority), and it sits in a difficult house (6, 8 or 12), so care and patience are needed for the matters it governs — house 6, the house of competition, debts, illness, service and enemies. It is in a friendly sign, which supports its results.

Overall tone: mixed. This period mainly activates: Career and profession (mixed), Marriage and partnership (mixed), Wealth and finances (mixed).

Most supportive sub-periods: Shani (15/10/2010), Budh (28/04/2013). Sub-periods that ask for more care: Ravi (11/03/2019), Mangal (28/04/2021).

Guru – Guru: 27/08/2008 to 15/10/2010

This sub-period of the main lord itself concentrates its results. Guru again brings the matters of its own houses: it rules houses 7 and 10 and sits in house 6 of your chart. Tone: mixed. Activates: Career and profession (mixed), Marriage and partnership (mixed). The two lords support each other by position in your chart.

Guru – Shani: 15/10/2010 to 28/04/2013

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Shani again brings the matters of its own houses: it rules houses 8 and 9 and sits in house 10 of your chart. Tone: favourable. Activates: Career and profession (favourable), Spiritual life (favourable). The two lords support each other by position in your chart.

Guru – Budh: 28/04/2013 to 04/08/2015

The lords of the main period and sub-period are not friendly, so some tension between the two themes is likely; patience and remedies help. Budh again brings the matters of its own houses: it rules houses 1 and 4 and sits in house 12 of your chart. Tone: mostly favourable. Activates: Career and profession (mostly favourable), Marriage and partnership (mostly favourable). The two lords support each other by position in your chart.

Guru – Ketu: 04/08/2015 to 09/07/2016

The lords of the main period and sub-period are neutral to each other, so results depend mainly on their positions in your chart. Ravi rules your house 3 (courage, siblings, short travel and communication), and it sits in a supportive house (a kendra or trikona) in your chart, which generally gives good results — house 1, the house of health, personality and new beginnings. It is in a neutral sign.

Overall tone: testing. This period mainly activates: Health and vitality (testing), Career and profession (testing), Travel and foreign connections (testing).

Shani sade-sati in your life

Shani takes about two and a half years to cross one sign. When it passes through the sign before your Chandra rashi, your Chandra rashi and the sign after it, the seven-and-a-half-year period is called sade-sati. It is a period of responsibility, hard work and inner growth, not only hardship. Many people make lasting achievements during sade-sati when they work honestly and patiently.

Now running: Sade-sati — Shani in Meen until 03/06/2027. Third phase (Shani in the second from the Chandra): family responsibilities and financial matters come into focus. Careful speech, saving and honest dealings bring relief. The effects gradually ease as the phase ends.

The three phases

First phase (Shani in the twelfth from the Chandra): expenses, travel, disturbed sleep and worries about the future can arise. It is a good time to cut waste, plan finances and look after health.

Second phase (Shani over the Chandra rashi): this is usually the most demanding phase. Work pressure, emotional strain and slow results are common. Patience, discipline and a calm routine carry you through, and this phase often lays the foundation for later success.

Third phase (Shani in the second from the Chandra): family responsibilities and financial matters come into focus. Careful speech, saving and honest dealings bring relief. The effects gradually ease as the phase ends.

Dhaiya (small panoti) occurs when Shani passes the fourth or eighth sign from the Chandra. The fourth brings domestic and property concerns; the eighth asks for care with health and sudden obstacles. Each lasts about two and a half years.

Traditional remedies

Traditional remedies: recite the Hanuman Chalisa or Shani stotra on Saturdays; light a sesame-oil lamp under a peepal tree on Saturday evenings; donate black sesame, urad dal, iron items, blankets or footwear to the needy; serve elderly and working people; avoid alcohol, dishonesty and harsh behaviour. These are traditional practices of devotion and charity and are not a substitute for medical or professional advice.

SAMPLE

Guru, Shani and Rahu over the coming years

The slow planets shape the long-term climate of your life. Below is every sign change of Guru, Shani and Rahu over the next 12 years, with the house it occupies counted from your Chandra rashi and from your lagna. For Guru and Shani the Ashtakavarga points (bindus) they hold in that sign are also given: classically, 4 or more bindus improve a transit and fewer than 4 weaken it, whatever the house.

Back-and-forth movement (retrograde motion) across a sign boundary is combined into one phase, so each phase below is one continuous chapter of your life. After the summary table, every phase is explained in turn: what it touches in your chart, how your running dasha works with it, what can happen in everyday matters, and what you can do to avoid problems.

Phase-by-phase readings

Guru: phase by phase

Guru in Simha (31/10/2026 to 24/07/2028) (running now) — Favourable

Guru in the 7th is favourable for marriage, partnerships and travel. Counted from your Chandra this is house 7; from your lagna it is house 3.

Because of retrograde motion it briefly moves back into Kark, Kanya and returns; the results described here continue throughout.

While in this sign, Guru passes over your natal Mangal (in your house 3; energy, courage, property and brothers). Its aspect falls on your natal Chandra (in your house 9; the mind, mother, emotions and public contact); Ketu (in your house 11; detachment, spiritual interest and sudden endings).

With 6 bindus the transit is well supported, so even difficulties turn out manageable.

At the start of this phase your running dasha is Shani – Shani, and by the end it is Shani – Budh. The dasha supports it, so the good results of this transit can come quickly and in full.

Guru expands whatever it touches. It usually brings goodwill, guidance and opportunities, but it can also make people over-optimistic, so keep your feet on the ground.

What can happen in house 7:

- **Clients and public dealings** — what can happen: a good response from customers, clients and the public. To keep it that way: Be polite, keep your word and keep proper records of agreements.
- **Spouse and married life** — what can happen: understanding, romance and support from the spouse. To keep it that way: Talk daily with patience, keep outsiders out of private matters and fix some time together every week.
- **Marriage prospects** — what can happen: good proposals and progress in marriage talks. To keep it that way: Take time to know the person and the family, check compatibility calmly and do not hurry.
- **Business partnerships** — what can happen: profitable alliances and trustworthy partners. To keep it that way: Put every term in writing and take legal advice before signing.
- **Agreements and contracts** — what can happen: favourable agreements and smooth negotiations. To keep it that way: Read every clause, ask questions before signing and keep copies.

What to do: Use this period well: start the things you have been planning, but stay careful and do not

SAMPLE

become careless because things are going smoothly.

Guru in Kanya (24/07/2028 to 25/08/2029) — Mixed

Guru in the 8th asks for patience; obstacles and health care need attention. Counted from your Chandra this is house 8; from your lagna it is house 4.

Because of retrograde motion it briefly moves back into Tula and returns; the results described here continue throughout.

Its aspect falls on your natal Shani (in your house 10; work, discipline, responsibility and delays); Budh (in your house 12; communication, business, studies and friends); Shukra (in your house 12; relationships, comforts, art and money).

With 6 bindus the transit is well supported, so even difficulties turn out manageable.

Your running dasha during this phase is Shani – Budh. Results will be mixed; use the favourable stretches to move ahead.

Guru expands whatever it touches. It usually brings goodwill, guidance and opportunities, but it can also make people over-optimistic, so keep your feet on the ground.

What can happen in house 8:

- **Sudden changes** — what can happen: unexpected help and positive turning points; on the difficult side, sudden changes or surprises that unsettle your plans. What helps: Keep a small emergency fund and a backup plan for important matters.
- **Health and safety** — what can happen: recovery after a period of illness; on the difficult side, the need for care with chronic or hidden health matters and with accidents. What helps: Do regular check-ups, avoid risky activities and drive and travel carefully. Consult a doctor early.
- **Spouse's finances** — what can happen: support from the spouse's resources; on the difficult side, strain over the spouse's or joint finances. What helps: Discuss money openly and keep joint accounts and responsibilities clear.
- **Inheritance and joint money** — what can happen: gains from inheritance, insurance or the spouse's family; on the difficult side, delay or disputes over inherited or joint money. What helps: Keep wills and papers clear and take legal advice before any settlement.
- **Research and hidden matters** — what can happen: deep research, insight and success in studying hidden subjects; on the difficult side, confusion or obsessive worry. What helps: Keep a regular routine and avoid extremes or risky practices.

What to do: Keep Thursday as a day for charity and good deeds, favour the colour Yellow, and chant Om Gurave Namah with devotion. Do not wear its gemstone unless an astrologer has checked your whole chart, because stones of such planets can increase their difficulty.

Guru in Tula (25/08/2029 to 23/09/2030) — Favourable

Guru in the 9th is very favourable: fortune, religious activities and support from elders. Counted from your Chandra this is house 9; from your lagna it is house 5.

Because of retrograde motion it briefly moves back into Vrishchik and returns; the results described here continue throughout.

While in this sign, Guru passes over your natal Rahu (in your house 5; ambition, foreign matters and unusual changes). Its aspect falls on your natal Chandra (in your house 9; the mind, mother, emotions

SAMPLE

and public contact); Ketu (in your house 11; detachment, spiritual interest and sudden endings); Ravi (in your house 1; self-confidence, father, authority and recognition).

With 4 bindus the transit gives average support.

At the start of this phase your running dasha is Shani – Budh, and by the end it is Shani – Ketu. The dasha supports it, so the good results of this transit can come quickly and in full.

Guru expands whatever it touches. It usually brings goodwill, guidance and opportunities, but it can also make people over-optimistic, so keep your feet on the ground.

What can happen in house 9:

- **Luck and fortune** — what can happen: luck supports you and your efforts bear fruit. To keep it that way: Keep working steadily, do not rely on luck alone and give to charity with gratitude.
